School Report.

To the Citizens of the Town of Newington :

In accordance with the requirements of the Public Statutes, we herewith submit the annual report of the Newington School Board for the year ending August 1, 1901 .

The school year began with Mrs. Hattie M. Greenough and Miss Marion Taylor in charge of the grammar and primary rooms, respectively, which was an assurance of a successful term of school.

Much to the regret of the School Board, Miss Taylor soon tendered her resignation to accept a more lucrative position in Portsmouth. We think we were very fortunate at this time in securing the services of Miss Abbie N. Frink, whose experience as a teacher eminently fitted her for the position. It is with pleasure that we state that Miss Frink's administration of the primary room has been even more successful than we anticipated.

Mrs. Greenough, it is perhaps needless to say, has as usual given excellent satisfaction.

Miss Lucy Hoyt has continued her instructions in music, and at the close of the year gave a very excellent musical programme.

It is with pleasure that we are able to report a great deal in the way of necessary improvements was accomplished by the cutting of a door for an outer entrance into the primary room, thus saving to the pupils in the grammar room much time that was otherwise wasted by the constant interruptions caused by the little ones passing to and fro.

Since our school room was divided, each school has been

working towards that ideal where it could be classified as a well graded school ; as a result, this year a class of ten will be admitted to the Portsmouth High School—six having received three months' tuition at the Farragut School, Portsmouth, four remained in our school the entire year and successfully passed the entrance examination to the High School. We believe that three of the latter are the youngest ever admitted from our school.

There will be seventeen scholars from our town to attend the Portsmouth High School next year, under the provisions of the new High School law which goes into effect August 1, 1902.

At the last school meeting a resolution was passed instructing the Board to enforce the truancy law.

It is with pleasure we report that about all the delinquents have been brought into the school without recourse to the law.

It gave the scholars great pleasure to receive from Miss Martha Coleman, the picture of Longfellow, the children's own poet and friend, and from their teacher, Mrs. Greenough "The Return of the Mayflower." It means much more than pictures, as it expresses friendship and good will ; and so the encyclopædias from Hoyt & Dow were more to them than books.

The table of general statistics accompanies this report.

TENTH ANNUAL REPORT OF THE TRUSTEES.

To the Citizens of Newington :

Another year in the work of the library has passed, and in accordance with the custom the Trustees present their report for the year ending Feb 15, 1902 :

We have tried to keep up to the high standard set in former years, and we feel that a large share of the credit is due to the late Eldora A. Pickering, a former Trustee, for the careful thought and attention which she gave to the work in the very beginning.

In the way of furnishings nothing has been added the past year, although there is need of another book-case for large books like "London News," the one in the library at present being full, and still there are more books and no suitable case for them.

In August, 1901, Mr. Woodbury Langdon presented a check for fifty dollars to the Trustees to be used solely for the purpose of opening the library one evening each week, and since that time the Library has been opened every Saturday evening

The thanks of the library officials are due to Mrs Woodbury Langdon for the generous gift of ninety-six new books presented in March, 1901; also to Miss Mary A. Foster, of Portsmouth, N. H., for eighty-six volumes presented in December. These latter books are not new, but most of them are in excellent condition, and are a most acceptable gift.

The Librarian's report shows that the circulation for the past year has increased to a very gratifying extent. We extend our thanks to the patrons of the library for their interest and hearty support.

LIBRARIAN'S REPORT.

To the Board of Trustees :

LADIES—I have the honor to present my third report as Librarian of the Langdon Public Library ; this being the tenth in the series of annual reports.

For the means of present and future comparison, the usual tables of statistics have been prepared and annexed.

The work of the Library during the year has not differed materially from that of last year. The need of juvenile books presented in the last report, was in a measure supplied in March by Mrs. Woodbury Langdon ; that these books are appreciated, is shown by the increased number of children who have become regular patrons of the Library. I would call attention to the new books provided, and ask is not this increased usefulness to the children a true gain to the community ? But the advantage has not been to the children alone ; that this gain may be

more readily seen, I have given the circulation for the last two years in the statistics.

Many years ago there was a circulating library established in Newington; it has been suggested that a few of its books are still in the possession of some of our people; any of these volumes would be received with gratitude, as suitable and tangible reminders of the library of earlier days in the library of to-day.

There are now on our shelves, eighty-six volumes of Harper's Monthlies from its initial number to May, 1893; it is desirable to have this set complete to date; there may be some who have enjoyed this periodical in their homes who would be willing to extend its usefulness by donating these later numbers.

Several years ago the need of a card catalogue began to be felt. I quote from the Trustees' report of 1899—

"The preparation of a card catalogue is one of the demands which the near future will bring. No better method has yet been devised for presenting a knowledge of the resources of a collection of books to those seeking information."

The need has become greater with the increased use and number of books in the Library; during the year inquiries have been made, and it is estimated that an expert could card catalogue our 2,700 volumes in six weeks; but recently Mr. Putnam has formulated a plan by which he proposes for the Congressional Library to aid other libraries in this matter by printing in Washington duplicate cards at small expense. The result of his efforts will be watched with much interest by libraries all over the United States, and it is earnestly hoped that Langdon Library may be able to take advantage of this help before long.

Respectfully submitted,

LYDIA SMITH COLEMAN, Librarian.
